

Rainforest Reading Level 1: The Ocean Assessment Recording Form

Student Name: _____

Date: _____

Students should be able to decode *80% or more of the sounds accurately for them to move on to the next level (The Sand).
*caveat: Students can move up to the Sand and The Forest Floor even if they haven't mastered the short vowels, because they will still be practicing those sounds for the first 3 levels of the program. It is important for them not to get stuck at a level that is too easy for them. Start by telling the students that the words on the following page are nonsense words. Students should read them carefully. Record their errors below. If they have more than 4 errors they should continue practicing the sounds at this level (The Ocean). If you need to test a child multiple times to see if s/he is ready to move up a level, use the additional tests.

Errors:

Dictate these words to the students: tap, hen, Sid, cob, run, fin, lip. They should spell roughly *80% of the sounds correctly to move on to the next level. On the lines, write how they spelled the misspelled words. They should write the words on the next page. To count errors, count each beginning, middle and ending sound separately. Here are alternate lists for retesting when you think the child is ready to move up. List #2: Sam, bed, hum, fit, lot, run, cap List #3: set, pin, fad, rub, Mel, hot, cab
